

WHAT IS IPIPE?

IPIPE IS A COLLABORATIVE PROGRAM DESIGNED TO TRACK PESTS AND DISEASES IMPACTING CROPS THROUGH A COLLECTIVE DATABASE. THE DATA IS SUBMITTED BY SCOUTS NATIONWIDE ON A LARGE VARIETY OF CROPS. MAPS ARE CREATED BY UTILIZING REAL TIME SCOUT AND WEATHER DATA. FARMERS WHO CONTRIBUTE TO THE DATABASE GET ACCESS TO THE LIVE MAPS WHILE SIMULTANEOUSLY STRENGTHENING THE NETWORK. TOGETHER WE CAN USE PESTICIDES AND FUNGICIDES MORE EFFICIENTLY AND EFFECTIVELY.

FEATURES

REAL TIME UP TO DATE MAPS FEATURING VARIOUS PESTS AND PATHOGENS. WITH IPIPE'S MAPS YOU CAN CHECK YOUR LOCAL AREA TO STAY ALERT AND AWARE OF POTENTIAL ISSUES AS WELL AS TRACK NATIONAL TRENDS.

ANONYMITY - IPIPE PUBLISHES DATA AT THE COUNTY LEVEL TO HELP PROTECT THE INTEGRITY OF FARMS THAT CHOOSE TO PARTICIPATE IN THE IPIPE PROGRAM. YOUR FARM WON'T BE TARGETED OR BLAMED FOR THE SPREAD OF DISEASES OR PESTS IF THEY ARE FOUND BY YOUR SCOUTS.

Comments

ACCESS TO THE IPIPE APP FOR APPLE AND ANDROID. THE APPLICATION MAKES SCOUTING EASIER AND MORE USEFUL. IT HAS THE ABILITY TO GATHER DATA THAT TRADITIONAL SCOUTING PROGRAMS WOULD MISS OUT ON SUCH AS GPS TAGGING AND ABILITY TO TAKE PHOTOS THAT CORRESPOND WITH THE OBSERVATION.

IPIPE IS TEAMED UP WITH THE COUNTRY'S LEADING UNIVERSITIES AND EXPERTS THAT ARE CONTINUING RESEARCH AND DEVELOPMENT IN ATTEMPTS TO IMPROVE THE NETWORK. RESEARCH IS CRUCIAL TO MAINTAIN OUR CURRENT AGRICULTURAL SYSTEM, BY JOINING IPIPE YOU'LL BE SIMULTANEOUSLY IMPROVING THE NETWORK.
